Verse 1

Incomplete, I was missing a purpose
Til you gave me something more
Everything left my soul feeling empty
Only your love can satisfy

Prechorus

When I thought that I ran out of hope
You came and made a way for me
I can trust that you will never fail
So here's my life, here's my heart

Chorus

All in, I'm all in for you
And my heart wants whatever you will
Oh I'm staying devoted to you
I know, You always have me

Verse 2

Every time I fall short of your glory
You follow me close with your grace
Nothing else can compare to the life
I'm living with You, You're enough
