## Verse 1

I wasted so much time  
Trying to do this thing all on my own  
Felt like an endless climb  
A path that left  
my heart without a home

## PreChorus

When I felt the distance  
My soul was on empty  
You still called me to be free  
When I felt unworthy  
Your grace pulled me closer  
In You I find identity

## Tag

You're all that I want  
All that I wa - nt

## Chorus 1

You are the one I've been searching for  
You're all I want everything and more  
And while I've wasted all You've given,  
I know I'm not ruined  
Still You will call me yours  
You're all that I want

## Verse 2

Thought I was living right  
Following the world in front of me  
Until You gave me life  
You showed my heavy heart  
the way to peace
