Verse 1:

It's hard to see the ending when my hands are tied up
But worship is the way I'm getting out
Even in the midst of isolation
This cell won't keep my praise from getting loud

Chorus:

Don't fear now
Freedom comes in the midnight hour
Breakthrough's coming
Lift your sound
Raise a shout 'cause He's here right now
Breakthrough's coming

Turnaround

Verse 2:

I believe the victory you won all for me
In the middle of the trial You're my hope
I will never let my praise go silent
I won't hold back the song within my soul

Chorus:

Don't fear now
Freedom comes in the midnight hour
Breakthrough's coming
Lift your sound
Raise a shout 'cause He's here right now
Breakthrough's coming

Interlude

Bridge:

Foundations are shaking
Chains coming loose
You turn this pain to joy
By faith you're making all things new

Hope is restoring
Shackles removed
The sound of freedom
builds until the gates are broken through
