Intro

Verse 1

I'll always remember when
The moment that You turned my life around
My sorrows were exchanged for joy
Now I'm feeling alright, alright

I never will forget your love
The way it captured every part of me
Every failure washed away
Now I'm feeling alright, alright

Pre-Chorus 1

Everything that I'm facing
Every tough situation
Can't compare to your grace
I'm never going back now

Pre-Chorus 2

This world may be fading
But your love's never changing
You're the thing that I'm chasing
Never going back now

Refrain

Never going back now

Never going back now

Verse 2

I'll always choose the path You've laid
I'll follow You through every twist and turn
Set my sights on things above
'Cause now I'm feeling alright, alright

I'll never leave this life I've gained
The freedom that I found in You won't fade
Forever living in Your grace
'Cause now I'm feeling alright, alright

Bridge

I'll follow you
Your peace and purpose
Have brought me through
You got me feeling alright, alright
