Verse 1

I won't waste today with worrying
'Cause nothing in my past can stop your plans for me
Though my future is a mystery
Lord, I know that You're preparing me

Pre-Chorus

'Cause I've been a beggar, I've been a leper
I've been a lost rebellious sinner
But even at my worst, You turned my pain into glory
Since I met you, life is better
Living in Your freedom forever
And even at my best You turn my praise into glory

Chorus

God, I thank you, oh I thank You
You always go before and make a way for me
God, I thank you, oh I thank You
No matter what I'm gonna give my praise to You

Verse 2

I remember all you've brought me through
Every sorrow turned to joy because of you
Though there's pain within my suffering
Lord, I know that You're preparing me

Bridge

I see that You are doing a new thing
Believe that You are making a way for me
I see that You are doing a new thing
Believe that you are working it all for good
